

Managing user groups

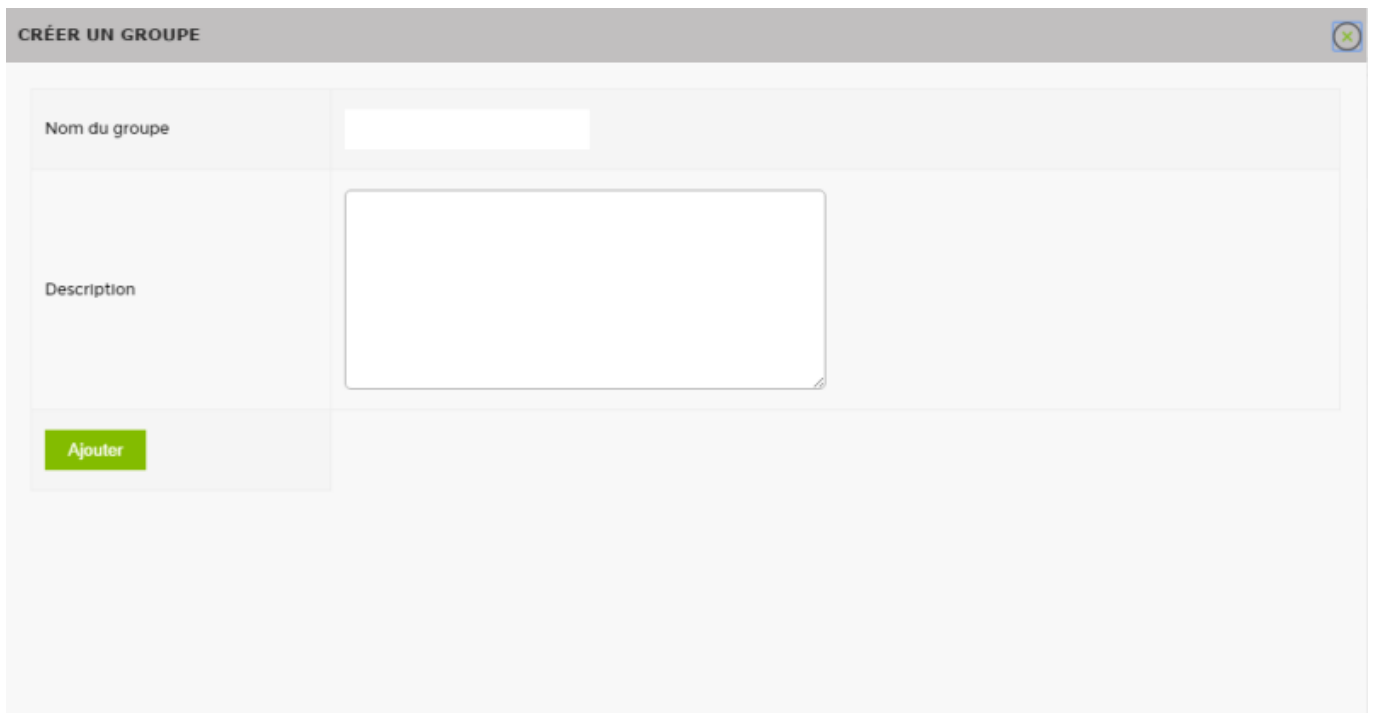

Creating user groups allows you to manage the rights (permissions) of group members.

Adding a user group

You can create a new user group via :

- The “Groups” tab in the administration menu. Click on the icon .
- The “Administration” box on the home page ⇒ Create a group.

The following window appears:

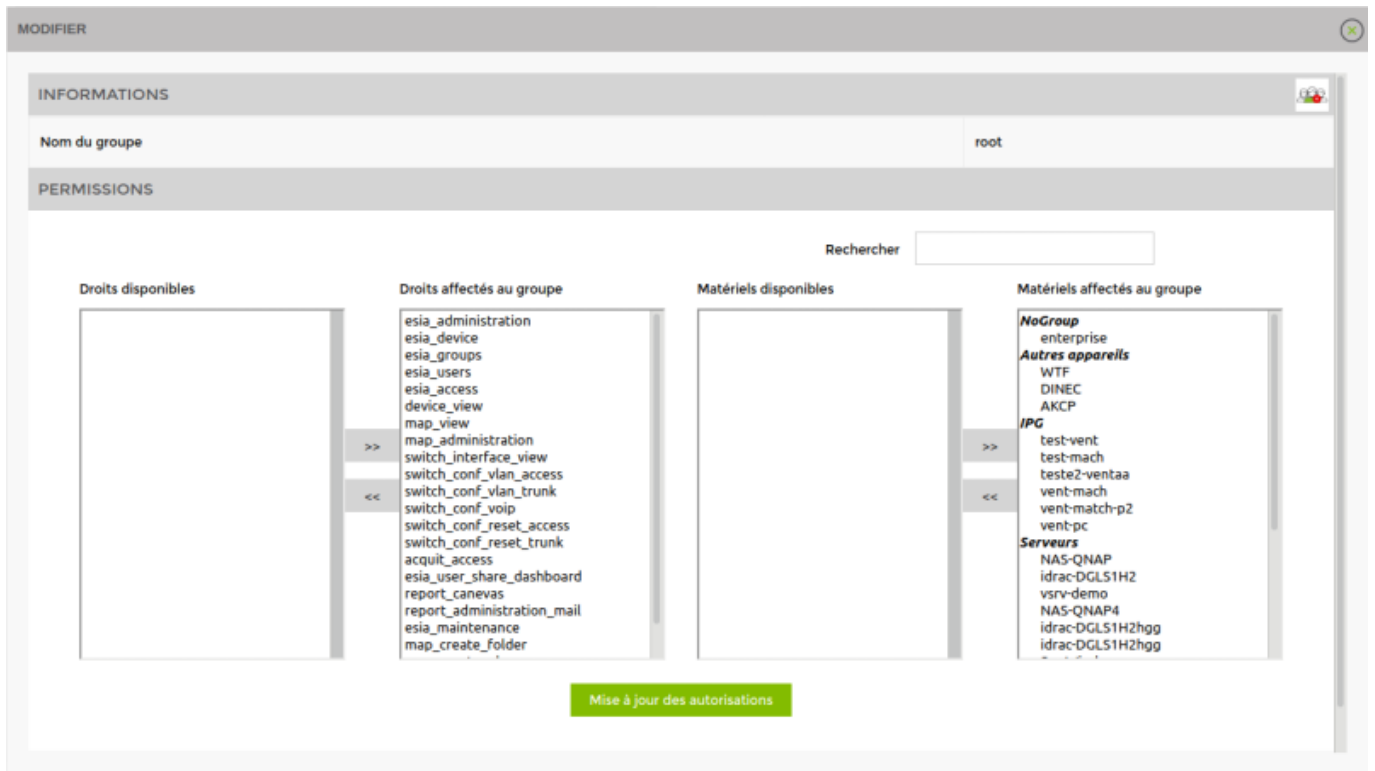

The screenshot shows a web interface for creating a group. The title bar reads "CRÉER UN GROUPE". The form has two main sections: "Nom du groupe" (Group Name) with a text input field, and "Description" with a larger text area. At the bottom left of the form is a green button labeled "Ajouter".

Fill in the fields and click Add.

Give rights to group users

From the group management page, click on the icon  icon of the group you want to set up.

This will take you to the following page:

In this window, you can add or remove rights and equipment simply by clicking on them.

Once you've made your choices, click on "Update authorisations".

To create users, go to [User management](#).
