

RSS feed management

Access to the RSS feed page

The RSS feed page can be accessed from the home page via the “RSS feed” quick link. Alternatively, it can be accessed from all pages via the quick buttons to the right of the breadcrumb trail.

The screenshot shows the Esia management interface. At the top, there are status indicators for nodes (13 green, 2 yellow, 1 red, 5 grey) and services (75 green, 2 yellow, 1 red, 15 grey, 0 blue). The main dashboard includes a pie chart showing 80.2% and 16.5%, a green box with the number 7, and a section for cron tasks with 8 green and 1 red circle. Below the dashboard is a table of errors with 5 entries. The sidebar on the left shows a list of inventories and a 'LISTE D'INVENTAIRE' section for RACINE, EGIDE, NAS, and UPS. The 'LIENS RAPIDES' sidebar on the right includes links for Administration des noeuds, Scanner de réseau, Wiki, Foire aux questions, Esia Voyager, and Flux RSS, with the Flux RSS link highlighted by a red box.

The RSS feeds page is divided into 3 sections.

- “RSS feeds”, which lists all the feeds to which the user has subscribed. It can also be used to add feeds.
- “All feeds” lists the messages on the selected feed and also displays the message header and subject.
- “Message details” displays the content of the message.

Subscribe to feeds

From the modal window, select the feeds you want, then at the bottom of the page confirm by clicking **Subscribe**.

Subscribe to a personalised feed

To register a feed that does not appear in the default list, go to the administration page from the jagged wheel icon in the left-hand side menu.

Once you have done this, go to the RSS Feeds tab, which will list the different feeds, and click on Add a feed.
