- List of patterns
- List of services

Switches and Routers

Items reported in general	
Bandwidth	Type of traffic (broadcast, unicast, error) (IF-MIB standard)
In addition for proprietary systems	
HP Switch 19XX	CPU, memory, flash and environmental sensors (temperature, power, etc)
HP Switch 2500 series and above	
HP allied telesis switch	::::
Cisco Switch	::::
Cisco router	::::
Brocade	::::

Firewall

Items reported in general	
Bandwidth	Type of traffic
In addition for proprietary systems	
Pfsense	CPU, memory, storage space, etc.
Fortinet	CPU, memory, storage space, number of sessions and VPN
Zyxel USG	
Stormshield	::::
Cyberoam	::::
Clavister	::::
Juniper	::::
Watchguard	

OS

For proprietary systems	
Windows	PING, CPU, RAM, Storage space, Bandwidth (standard HOST-RESSOURCE-MIB)
Linux	::::
VM-Ware	

Physical servers

For proprietary systems	
Dell and Idrac	Disk, SMART, RAID, Power, Temperature, etc.
HP Ilo	::::
Fujitsu	
Others	
IPMI-compatible server sensors	
Lenovo IMM	

NAS

For proprietary systems	
Synology	CPU, RAM, volume size, bandwidth, etc.
QNAP	::::
Seagate	::::
Netgear	::::

Printers

For proprietary systems	
HP	Consumable status if PRINTER-MIB compatible
Brother	::::
Konica	::::
Canon	::::
Samsung	::::
Ricoh	::::
Kyocera	

UPS compatible with UPS-MIB

For proprietary systems
Riello
Eaton
APC

PDU

For proprietary systems
Eaton
Raritan

Storage

- EMC Data Domain

Protocols

- HTTP / HTTPS
- DNS
- IMAP
- POP3
- SMTP
- SSH
- FTP
- TCP

Applications

- Website
- Expiry of certificates
- Google page rank
- NTP synchronisation
- Testing the presence of a process under Windows/Linux
- Exchange
- DNS and IIS Windows statistics

- Windows log testing
- Security Centre Test
- PostgreSQL and MySQL database

Backup

- Bareos
- Veeam
- Eurobackup
- Quest Rapid Recovery (Appasure)

Systems only supervised on ESIA Infinity

- HWG probe
- TR-069 & GénieACS
- IBM Storewize
- Netapp (GALAXY)
- HP 3PAR, MSA (GALAXY)
- Cisco ASA
- Enterasys (GALAXY)
- Extreme Network (GALAXY)

- Cisco Nexus
- Siemens Telephony (Patton) & asterisk
- Xenserver cluster & host + configuration
- ERP: Odoo, etc
- IBM Lotus Note application
- Hospital applications (H++, etc)
- Oracle database
- VMWare (GALAXY)
- EMC (GALAXY)
- SQL query
- A wide range of customisations
