## Node overview page

A node's presentation page generally looks like the image below:

It displays the following information:

- 1. The overall status of the node
- 2. The node's global availability graph
- 3. Node information in ESIA
- 4. Horizontal menu giving you access to
  - Service status
  - Alert history
  - Availability reports
  - Service graphs
- 5. General hardware information

ESIA will then display all the tests carried out on the node, as in the following example:

From left to right, you will find :

- 1. The name of the service (the test) and its status (ok, alert, critical, unknown)
- 2. The time of the last execution
- 3. Information reported
- 4. Possible actions

Via the actions column, you can :

## <HTML>

```
<style>
.wrap_action-col-list img {max-width: 20px !important;}
</style>
```

</HTML>

- 😟 = > Edit test parameters
- Acknowledge the alert to indicate that you are working on resolving the problem. This will change the colour of the alert to blue.
- (h) = > Displays a graph of the test with the option of exporting it.
- P = > Run the test now

## **Specific equipment**

Some equipment has a different way of presenting its information. Find out more about them in the following sections:
