

SNMP activation on a Riello UPS

The tutorial has been tested on a Riello UPS with a Netman 102 card.

Once connected to the console (parameter: 9600 baud 8N1), this menu appears:

```
 /-----/
/-----/
NetMan plus
/-----/
/-----/

IP config.....:<--
Time setting...:
UPS config.....:
Services 1.....:
Services 2.....:
Security.....:
Save and load..:

Press [Esc] to quit
Version 01.21 - Data from flash - On Line
```

Scroll down to the “Services 1” line and press “enter”. In the next menu, go to “SNMP community” + enter.

```
 /-----/
 /      Services 1      /
 /-----/

SNMP config....:<--
SNMP community.:
Modem config...:
Modem logic....:
Email config...:
Email logic....:
Miscellaneous..:
Activation 1...:

Press [Esc] to quit

Version 01.21 - Data from flash - On Line
```

Edit your community, here I've set it to "public".

```
 /-----/
 /      SNMP community  /
 /-----/

Get community...:public
Set community...:private
Trap community..:public

Press [Esc] to quit

Version 01.21 - Data from flash - On Line
```

Press "Ech" and then confirm
